He collected 300 more cats and expressed them home. Yesterday he visited Mount Hope and gathered up 100 more and sent them home. He has collected about 1,000 cats and then await further orders.

From the letter he learned that the cold weather had caused the rats to come in from the prairie and that they may be playing dead havoc with residents and their merchandises of all kinds. The letter announced that the rodents had done thousands of dollars' worth of damage in the town.
